- Timely payments and easy alerts for better decision-making

Streamline Processes

- Minimize invoices and save significant time on accounting
- Benefit from a single instruction and one point-of-contact
- The flexibility to meet your specific needs

Sharpen Visibility

- Gain transparency into payment history
- Improve ability to forecast and prune costs
- Run budget reports with a few simple clicks

Overview

Maintaining complex, global patent portfolios is a critical priority for IP professionals. This responsibility is rife with the potential for needless cost, risk, and inefficiency. Patent maintenance procedures are a challenge to monitor across multiple jurisdictions. Payments must be made on a timely and accurate basis. Tracking and forecasting costs are not easy. Furthermore, error is not an option in the context of strict jurisdictional rules.

IP professionals successfully execute their patent maintenance strategies with Sun IP's world-class solutions. We enable seamless, timely, and accurate annuity payments across all major jurisdictions, and provide clear, comprehensive information into annuity-related costs.

Sun IP's annuity solutions revolve around rigorous processes that enable your peace of mind. Our highly-experienced team leverages industry-leading technology for your benefit. Clients choose Sun IP to efficiently and effectively execute their IP maintenance strategy.

Our platform

A powerful, intuitive software platform for IP maintenance decision-making:

- Clear, accurate reporting and cost forecasting
- Intelligent, actionable decision-making
- Streamlined payment across multiple jurisdictions

Our promise

Our team serves as an extension of yours. We monitor deadlines, issue reminders, and update you on annuity-related rules and official fee changes. Our commitment is to the highest standard of client service and we work flexibly to meet your specific needs.
